Horse-Matches, &c.

By JOHN CROFT

This Work will be publish'd every Year about Christmas, for Seven Years successively beginning in 1747.

As the same appearing *Annually*, in the midst of Winter, will be an agreeable Amusement in that dull unactive Season, rendring Gentlemen capable, even in their Chambers, of diverting themselves with a Prospect, as it were, of the Sport of each past Year, so also must the Advantage be considerable in Point of Practice, each Book discovering what Horses are moving in all Parts of the Kingdom, and what Figure every particular one of 'em has, made at the Places of his running the Season before; what Alterations, different Weights, and different Courses, and different Seasons, of the Year has caus'd in any of them. From hence 'twill be always discoverable what old Horses are dropping, and how they decline and go off; what young Horses are every Year coming up; and by what Steps they advance and improve, &c. Which must render Gentlemen capable of reducing their Calculations nearer to perfection, and consequently of Matching or betting with greater advantage.

The Conditions are, That half a Crown be paid at Subscribing, and five Shillings Annually, in the said 7 Years, at the delivery of a Book, the last Year only excepted, in which only half a Crown is to be paid, which with the half Crown receiv'd on hand, will make five Shillings for the last, or seventh Book.

Notice will Annually be given in the Papers as soon the Work is Printed, and where, in London; and to be deliver'd out;

By JOHN CHENY.
N. B.
